Dimension "D" \_\_\_ 1/8" \_\_\_ 3/16"  
\_\_\_ 1/4"

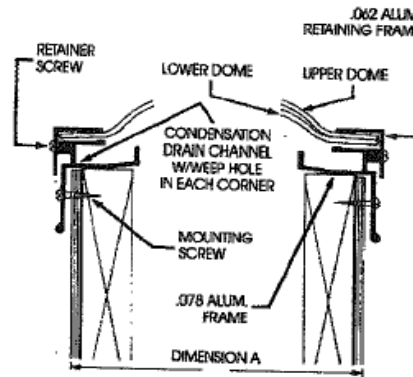

## SHIPPING:

We are proud to announce that we are able to ship nationwide from 3 conveniently located warehouses around the U.S.

- ✓ Houston, TX
- ✓ Chicago, IL
- ✓ Colorado Springs, CO

# Information needed when quoting a Curbmount Sky-lite:

- What is the size of the Curb?
- Do you want a Mill Finish Frame or a Bronze Frame?
- Single dome or Double dome
- What color dome/domes do you want?

**CURB MOUNT:** Designed and fabricated to be compatible with contractor fabricated and installed curb and flashing. Mounts easily to your curb making it particularly acceptable to flat and low pitched roofs

# Information needed when quoting a Self Flashing Sky-lite:

- What is the ID (inside dimension) only?

(if you aren't sure what the ID is, measure the hole in the roof.)

- Do you want a mill finish frame or a bronze frame?
- Single dome or Double dome
- What color dome/domes do you want?

**SELF FLASHING:** Designed and extruded with its own integral curbs. Makes it ideal for low pitch to high pitch roofs. Integral flashing even has its own nailing groove. Installs just like a vent.
